Education

2026

Wiz Bug Bounty Masterclass

- Hands-on CTF challenges (based on real-world bug submissions)
- Reconnaissance & subdomain enumeration
- Web proxy interception (Caido)
- Vulnerability research (subdomain takeover, exposed assets, API key leaks)

Claude Code 101 - Anthropic

- AI coding agent workflows (Explore → Plan → Code → Commit)
- Context window management & CLAUDE.md configuration
- Subagents & custom skills
- MCP server integration
- Hooks & permissions control

2019-2021

Sulam Tzur High School

- Accelerated English Program
- Bagrut average: 111.55 (TAU weighted)

Skills

- AI-assisted development (Claude Code, Lovable)
- Creative problem-solver with an entrepreneurial mindset
- Power-Bi
- G.I.S Systems
- Intelligence Gathering & Analysis

Language Proficiency

English - Fluent

Hebrew - Native

Tomer Assa

Product Manager

I worked closely with interdisciplinary teams, built real relationships along the way, and constantly looked for ways to improve how things were done, bringing lessons from Sayeret Matkal directly into how I operated in 8200. In my recent roles across both 8200 and 767, I worked closely with senior leadership and various teams from different disciplines, including engineers, analysts, and security experts. Managing complex operational projects while building data tools and workflows that drove real mission impact. With an entrepreneurial mindset, I thrive in fast-paced environments and am seeking a Product or Project Management role where I can bridge technical capabilities and strategic goals to build something that matters.

Experience

2024-Today

Unit 8200 | IDF

PRODUCT\ PROJECT MANAGER

- Successfully managed multiple operational projects with a focus on detail, impact, and timely delivery; excellent at prioritizing competing tasks in a fast-paced environment.
- Collaborated with cross-functional teams including product, analytics and engineering to plan and execute short-term impactful operations.
- Utilize specialized data tools to create customized queries and alerts, enhancing mission effectiveness and decision-making capabilities.
- Lead efforts to continuously monitor, evaluate, and respond to dynamic security challenges in a fast-paced, high-stakes environment.
- Foster a collaborative environment to ensure seamless integration between technical teams, improving mission outcomes and overall operational efficiency.
- Oversee the development and execution of advanced data-oriented strategies to identify, analyze, and advance intelligence sources.
- Spearheaded continuous monitoring initiatives to evaluate and capitalize on evolving leads and opportunities.

2023-2024

"Sayeret Matkal" unit. | IDF

PRODUCT MANAGER

- Led the integration of custom-built GIS tools, collaborating with recruited GIS developers to automate workflows and optimize operational efficiency.
- Identified and resolved bottlenecks in legacy workflow methodologies, streamlining processes and boosting productivity.
- Designed and conducted semi-annual Power BI training programs to enhance team proficiency and data-driven decision-making.
- Administered GIS systems, including ArcMap and ArcGIS Pro, ensuring robust system functionality and support for operational needs.
- Integrated Power BI solutions into diverse projects, transforming data into actionable insights for strategic decision-making.
- Led cross-organizational projects with external units (81, 9900), leveraging their capabilities to address challenges and resolve bottlenecks within my organization.

2021-2023

"Sayeret Matkal" unit. | IDF

INTELLIGENCE ANALYST

- Analyzed geographical activity data to support operational assessments, leveraging Excel for data processing and insights.
- Developed interactive dashboards in Power BI to visualize key data trends and enhance decision-making processes.
- Applied GIS tools for spatial calculations and designed a Google Maps-style interface to improve geospatial data accessibility.
- Analyzed geographical data to support ongoing intelligence efforts and operational assessments.
- Excelled in a high-pressure, fast-paced operational environment, leveraging strong collaboration and communication skills to meet tight deadlines and deliver results.
